

Lemnis Lighting B.V. ([www.lemnislighting.com](http://www.lemnislighting.com)) is a leader in durable lighting solutions based on LED technology. Lemnis Lighting produces the Pharox bulb ([www.pharox-led.nl](http://www.pharox-led.nl)), suitable for both the consumer and commercial market. Lemnis Lighting also develops LED-concepts for street lighting, greenhouse and solar powered lighting.

Lemnis Lighting is a young, dynamic and fast growing organization with big international ambitions. Our offices are located in Barneveld, The Netherlands (Headquarters), San Francisco, Johannesburg, Hong Kong and Singapore. Lemnis Lighting is a subsidiary of Tendris Holding. This investment company invests in (new) companies that focus on market-driven, sustainable and environmentally friendly solutions.

For Lemnis Lighting, we are currently looking for an experienced

## **(Senior) Electronics Engineer**

In this role you will be responsible for the right performance, price and quality of the electronic driver in all products and the availability in Certified Products on time.

Other areas of responsibility include lamp and luminaire development projects, manage electronics lab, contribute to Lemnis Roadmap process and root cause analysis of field-returns. In this job you will report to the CTO. There are a lot of opportunities and space for creating success in Lemnis Lighting's dynamic environment.
